

## **...love and friendship**

Betr.: „Die Kinder von Blankenese“, Besuch aus Israel in Blankenese und in der Klönschnack-Redaktion  
(KLÖNSCHNACK, 11.2006)

*This letter is also addressed to all the wonderful people that stood by you and the contributors who gave a generous hand to the organization and success of the project. A week has already passed since we parted and we still feel emotionally excited by the love, friendship and hospitality which encircled us. We are today more matured and experienced people who have built families and new lives but are still loaded with painful memories of the hard childhood. Being together again as the "Children of Blankenese" has filled us with emotions and gratitude for all that had been done for us then. The recent visit to Blankenese and Hamburg has closed a circle which began in the terrible war. The German edition of the book "Kirschen auf der Elbe" was for all of us a unique taste of luscious cherries. In the name of all the participants, I wish to thank you and all your colleagues again for the great effort, love and friendship which enabled this great gathering.*

YITZHAK TADMOR
